

Blue Rock Heritage Center

Washington Boro | Pennsylvania

Application for Membership

The Blue Rock Heritage Center is a registered non-profit 501(c)(3) organization working to promote and conserve the rich history and natural resources of the Lower Susquehanna River Valley through education, preservation and restoration. Everyone involved with the Center volunteers their time and expertise. Every dollar of your membership fee goes directly into maintaining and servicing the building structures, the collection, and the grounds. Your membership will help the Center increase public awareness of our archaeological and historic resources, our features and buildings, and help access and maintain local ecological systems. Active members receive our reports and advanced email announcements about invitations to special events, speakers and presentations.
